CHAPTER 2

BRAINSTORMING AND IDEATION PHASE

2.1 PROBLEM STATEMENT AND UNDERSTANDING

Problem statement:

Henlein Watches, a prestigious watch shop known for its commitment to craftsmanship and luxury timepieces, is currently facing several critical challenges. The shop is experiencing a decline in foot traffic and sales, exacerbated by the changing retail landscape and online competition. Additionally, Henlein Watches is struggling to effectively adapt to evolving consumer preferences and purchasing behaviours. To secure its position as a thriving and competitive establishment, the shop must find innovative strategies to attract and retain customers, both online and in-store, while preserving its reputation for quality and luxury in the watch industry.

Understanding:

A watch shop like Henlein Watches is likely to offer a wide range of timepieces, including various brands, styles, and designs. This may include luxury watches, fashion watches, sports watches, and more. If the shop focuses on luxury or high-quality watches, you can expect an emphasis on craftsmanship and precision. The watches offered should be made from high-quality materials and may incorporate traditional watchmaking techniques. Brand Identity Henlein Watches may have its own brand identity and collection of watches. These watches would be designed and manufactured to reflect the shop's specific vision and values, which could include elements like elegance, timeless design, and attention to detail. Customer Service: Good watch shops typically provide excellent customer service, including assistance with selecting the right watch, sizing adjustments, and advice on maintenance and care.

2.2 EMPATHY MAPPING CANVAS

Building upon the foundation of the problem statement, the project constructs an elaborate empathy map canvas that encompasses the target audience's diverse thoughts, feelings, and behavioural patterns associated with their Watch preferences and purchase decisions.

By immersing in the audience's perspectives, motivations, and pain points, the project team gains invaluable insights that inform the empathetic design of the brand name, Brand Mail, and Brand Logo, enabling the seamless integration of emotionally resonant narratives, captivating visuals, and relatable storytelling elements that foster a genuine and lasting connection with the audience's aspirations and desires.\

2.3 BRAINSTORMING AND IDEATION PHASE

The brainstorming and ideation phase cultivates a collaborative and creative environment that encourages the generation of innovative ideas, visual concepts, and storytelling narratives, all cantered around Henlein Watches' brand identity and Watch offerings. Through active ideation sessions, the project team explores diverse creative avenues, experimenting with visual aesthetics, narrative structures, and thematic elements that showcase the brand's elegance, sophistication, and timeless appeal, fostering an atmosphere of creative exploration and artistic expression that shapes the foundation for the development of a compelling and visually captivating brand brand name, Brand Mail, and Brand Logo.

Use this template in your own brainstorming sessions so your team can unleash their imagination and start shaping concepts even if you're not sitting in the same room.

Henlein Watches

Watches have long been more than just timekeeping devices; they are a fusion of functional precision and timeless fashion. Beyond their essential role in telling time, watches serve as both utilitarian tools and stylish accessories.

2.4 PROPOSED SOLUTIONS

- **Identifying Target Audience:** Brainstorm to define the specific target audience for the website, considering demographics, interests, and user preferences. This will help in customizing the website design to cater to the audience's needs and preferences.
- **Exploring Branding Elements:** Ideate on the branding elements, including colours, fonts, and visual styles, to ensure consistency with the overall brand identity. Consider how these elements can be integrated into the website design to create a cohesive and recognizable brand image.
- **Content Planning:** Brainstorm content ideas such as compelling text, engaging visuals, and multimedia elements that effectively convey the brand's message and offerings. Consider the use of storytelling techniques to enhance user engagement and create a memorable browsing experience.
- **User Experience Design:** Ideate on the website's user interface and experience, focusing on intuitive navigation, clear calls-to-action, and a responsive layout for various devices. Discuss interactive features and functionalities that can enhance user engagement and encourage user interaction.
- **Customization Options:** Brainstorm ideas for customizing Canva's templates to create a unique and visually appealing website design. Discuss ways to modify layouts, graphics, and other design elements to reflect the brand's personality and differentiate the website from competitors.
- **Integration of Multimedia:** Explore the possibilities of integrating multimedia elements such as videos, animations, and interactive graphics to enhance the website's visual appeal and convey information in an engaging and interactive manner.
- **SEO and Analytics Considerations:** Ideate on strategies to optimize the website for search engines and discuss the integration of analytics tools to track user behaviour and measure the website's performance. Consider ways to incorporate relevant keywords and meta tags to improve the website's visibility and ranking on search engines.

- Responsive Design Planning: Brainstorm ideas for ensuring the website's responsiveness across various devices and screen sizes. Discuss strategies to optimize the website's layout and content to provide a seamless user experience on desktops, tablets, and smartphones.
- Call-to-Action Strategy: Ideate on effective call-to-action strategies that encourage user engagement and drive conversions. Discuss the placement of call-to-action buttons, forms, and other interactive elements to guide users toward desired actions, such as making a purchase or signing up for a newsletter.
- Feedback Mechanism: Brainstorm ideas for incorporating a feedback mechanism, such as user surveys or feedback forms, to gather insights on user satisfaction and identify areas for improvement. Discuss the implementation of user feedback to refine the website design and enhance the overall user experience.
- By considering these brainstorming and ideation ideas, the project report can lay a solid foundation for the website's design and development process, ensuring a comprehensive and well-thought-out approach to building a successful website using Canva.
